Ease of Installation

Great Aesthetics

Easy to Use

Top Performance

PatioMaster - the most advanced PVC-U sliding door system on the market

The market-leading PatioMaster sliding door system combines the best in PVC-U aesthetics to deliver a robust, high performing patio door that fits beautifully into any home.

With its enhanced aesthetics and improved interlock sightlines, PatioMaster also boasts a new midrail, designed to accommodate a security letter plate. There is also superior weather performance and a new option for triple glazing.

Thermal and weather performance have been upgraded with a new sash that increases glazing options to include 28mm and 36mm (triple glazed).

Strength and security are at the forefront of the system. A new, larger reinforcing chamber makes the system stronger and more robust. And as well as the homeowner-favourite Yale 6-hook lock, we have also taken security to the next level with additional shootbolt-type locking points to deliver a 10-point locking upgrade.

The new PatioMaster sliding door system includes everything that made it the market leader. But thanks to our commitment to continuous development and innovation, it's now even better.

PatioMaster® by Epwin Window Systems

Aesthetics

- 70mm system compatible with all leading PVC-U systems
- Chamfered profile fits beautifully into British homes
- 2, 3, 4 or 6-pane configurations
- Maximum brickwork opening up to 5.9 metres with Triple Track option
- Choice of handles and finishes, including dual colours
- Full range of colours and finishes, including grained and flat textures
- Patented interlock system with enhanced sightlines
- NEW mechanically jointed midrail design offers enhanced appearance.

Performance

- 28mm and 36mm (triple glazed) glazing options
- NEW PCE gasket design delivers improved weather seals
- Larger sash reinforcing enhances meeting stile strength for improved wind loading.

Usability

- Easy glide, stainless steel track system for maximum structural integrity, corrosion resistance and service life
- Edge-located rollers for easy adjustment and smooth glide feel
- Beautiful, easy-to-use handles.

Strength and Security

- Homeowner-favourite Yale 6-hook locking system
- Additional shootbolt extensions to deliver 10-point locking that meets the requirements of PAS 24
- NEW, larger reinforcing chamber delivers a system that's stronger and significantly enhances weather performance.

Ease of Installation

- Larger 20mm glazing rebate for easier glazing
- Additional clearance around the lock case for reinforcement
- NEW sash profile with dedicated fluted screw chamber to enhance screw retention and eliminate the need for RCM to achieve PAS 24
- Interlock fixes directly into the profile with threads that pick up along the channel
- Full range of ancillary products including cills, additions and couplers.

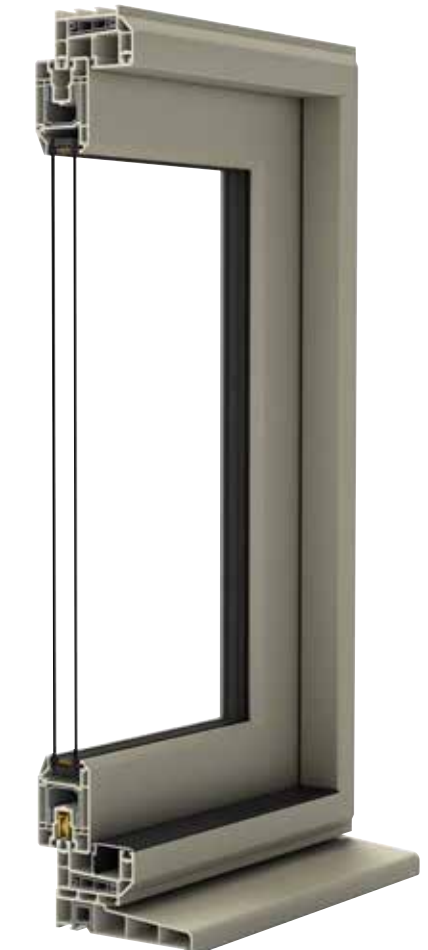

PatioMaster Twin Track Sliding Door System

The PatioMaster Twin Track Sliding Door is a classic sliding door system.

Simple good looks, ease of use and impressive energy efficiency and security credentials all add up to a sliding patio door system that adds value in more ways than one.

Features

- 2, 3 or 4-pane configurations
- 28mm and 36mm glazing options
- U-value 1.0 W/m²K with triple glazing
- Easy glide, stainless steel track system
- Low sightline co-extruded gaskets
- 10-year guarantee

PatioMaster Triple Track Sliding Patio Door System

The Triple-Track Sliding Door is a stunning glazing solution that delivers the wide-open feel that today's homeowners love, even at smaller frame sizes.

With two or four sliding sashes that stack neatly behind each other, they don't encroach on precious space indoors or out. They offer significantly more open space compared to conventional sliding doors – and they have a better glass-to-frame ratio than doors with folding sashes for bigger, more expansive sightlines.

Features

- 3 or 6-pane configurations up to 5.9m brickwork opening
- 28mm and 36mm glazing options
- U-values as low as 1.0 W/m²K with triple glazing
- Maximum size with a 6-pane doorset: 5920 x 2360
- Increases available opening space
- Carriage wheels at sash ends for easy adjustment and stability
- Low sightline co-extruded gaskets
- 10-year guarantee
